Principal's Report

School Council Annual Public Meeting

A big thanks to those who came down to the MCC for our annual public meeting and enjoyed a family style dinner afterwards. Meaningful connection is something we value highly at Munglinup PS. It was great to see so much support of our little school.

Celebrating Reading

A huge congratulations to Lincoln, Hailey and Mareyn for completing 100 nights of reading! As a reward for their efforts, these students have chosen 5 new books for our school library. I wonder who will be next in the race to complete 100 nights.

We have some new reading pods in our classroom. Children love to curl up and find a cozy place to read, these pods offer just the place! Do you have a special place at home you like to read?

P&C

Containers for Change- A big thanks to the Munglinup community for donating their containers for change at the golf course and MCC. The latest collection was 2685 containers resulting in \$268.50 to our Munglinup Primary School P&C. Collection bins are located at the MCC and golf course. Bags are available to anyone at the MCC and school office if you need them.

Munglinup Exhibition Football Match- The P&C provided an amazing Footy canteen menu for the footy day. Thanks to those who volunteered on the day and those who made purchases. They raised \$1302!

NGALAK | UNITY Art Exhibition and Kepa Kurl Walk On Country Excursions

The students have had the opportunity to participate in a variety of authentic aboriginal cultural experiences to celebrate NAIDOC week. It was great to learn alongside Salmon Gums PS for the cultural arts immersive experience at the Cannery and all Mallee schools for the 'walk on country' excursion last week. We are fortunate to have strong relationships with local aboriginal people who are willing to share their wealth of knowledge with our students.

Our Plastic Free July Challenge

For our plastic free July challenge, we chose to refuse to buy and use a lot of plastic like coffee cups and water bottles. We used reusable bags and cups. We normally do most of it, but some things were still a bit tricky because the shops are full of food in plastic.

We did this challenge because it was plastic free July and we thought it would be a good challenge. Me and my brother really want to change the world and to do this we should take it step by step bit by bit.

What went well was when we chose to refuse some sorts of plastic. We encouraged Mum and Dad to also help to refuse plastic. We got really into the plastic free thing.

What we found challenging was at Woolies when there was a lot of plastic and we normally get an order not going into the shop. When we got a special treat at Maccas it was hard to avoid getting plastic, so we didn't take straws and we tried to not get too many plastic objects.

Tips for Others!!!

To always believe that you can do it step by step.

By Mareyn and Thys

Plastic free July

Our challenge was to not use plastic bags.

The cows eat the grass and we eat the cows. Cows eat the plastic, and it goes in our bodies.

We used bags that weren't made of plastic.

Sometimes we forget our bags. Next, we will say don't forget your bag Mum and Dad and keep a spare in the car.

By Ben and Leearhna

Recycle Plastic

My challenge was to reduce soft plastic. Plastic can get in animals and bugs, even people.

My challenge went well because we started making our own bread, so we didn't use packaging.

It was hard to make bread because it takes so long. You can make lots of things to eat so we can save the world.

By Lincoln

Plastic Free July

On the first of July we had a challenge to not use plastic. We all had to pick a challenge, my challenge was not to use plastic straws because turtles can get them stuck into their flippers and their shells.

The things that went well was, that we only used metal straws and that we bring them to places that have paper straws.

The things that were challenging was, that we had to remember to bring them with us, but it was easy to remember them.

Tips, some tips are to start small and get harder as you go on.

By Oscar

Plastic Free July

Our challenge was to try not to get/use pre-packaged food. By doing this we were trying to save things like animals and ourselves. We are also doing this because the plastic gets in our atmosphere and we are trying to stop this. The plastic can also create more and bigger bushfires.

What we did well was using containers in our lunch boxes that we can reuse. What we found challenging was not getting plastic when shopping at Woolies. There is a lot of plastic when shopping in Woolies. There is a lot of pre-packaged stuff in Woolies.

By Hailey and William

Australia Day WA Aussie of the Month

Awarded to an outstanding citizen in our school community

Lincoln

Lincoln has a thirst for knowledge and enjoys sharing what he has learnt with the class. He has begun to show greater independence when facing challenges within a task. He calmly and respectfully seeks help from the head students or teachers to solve the challenge he is facing and is developing his ability to trial new learning tactics in group and independent tasks. Fantastic effort, Lincoln.

Dr Magda's & Nerdy Nard's Chemistry Party (Regional WA)

Become a scientist and perform experiments in your own home!

ECU Scientists invite you to join their interactive science demonstrations and experiments, broadcasting live from the new ECU SuperLabs. We will be creating free science 'kits' including fun experiments, which we will send to your home so that you can join in the fun alongside our scientists. You will also have the opportunity to ask lots of questions about science.

Join in the fun under the guidance of:

AND

Dr Magda

Nard the Nerd

This event is suitable for children aged between 6-12 years old, living in Regional WA. During the live and interactive science activities you will get to the opportunity to:

- Find out what is in baby nappies
- Investigate the properties of polymers
- Make your own pH indicator and measure the pH of common substances that you have at home
- Discover how good your sense of smell is
- Understand how water beads work
- Plus perform other interesting experiments

When

Wednesday 10 August 2022, 5pm-6.30pm

Where

Online via Teams

Register here

PROGRAM OF FREE COMMUNITY EVENTS

Throughout August	SCHOOLS PROGRAM	Biodiversity Art and Music workshops with students and staff at Castletown Primary, Esperance Senior High, Esperance Primary, Our Lady Star of the Sea and the Mallee Outlying Schools	
<p>Make sure to book for this exciting lineup of events and workshops. Events are free but places are limited. Registrations essential - book online at canneryartscentre.com.au/events</p>			
31 July 8.30 to 12.30	Sunday Markets	Meet the Artist in Residence Angela Rossen and learn about the Living Reef Festival This is your chance to sign up for workshops and events	Museum Village Markets
5 August 5.30pm	Percussion workshop	Create a Reef Soundscape with percussionist and composer Thea Rossen	The Cannery Arts Centre
5 August 7pm	Reef Soundscape Performance	Come and hear the soundscape orchestra composed of community members and students from two schools	The Cannery Arts Centre
14 August 8.30 to 10.30am	Community Bird Walk	Community Coastal Bird Walk with the Esperance Bird Observers Group	Location TBC
17 August 6 to 9pm	Painting Workshop	Learn how to paint a nature study. No experience needed	The Cannery Arts Centre
20 August 9am to 12	Walk on Country	Walk on Country Cultural Tour with Annie Dabb	TBC
20 August 6 to 9pm	Painting Workshop	Learn how to paint a nature study. No experience needed	The Cannery Arts Centre
21 August 9 to 12	Community event	Beach Biodiversity Exploration and Discovery morning	Twilight Beach
24 August 5.30 - 7.30pm	EXHIBITION OPENING	Opening Living Reef Exhibition created by the people of Esperance	The Cannery Arts Centre
25 August 6 to 8.30pm	Sharing ideas	Talking about the Reef a discussion with scientists, local Elders and the people of Esperance followed by supper	The Cannery Arts Centre

Fortescue Future Industries has earmarked South East Western Australia as a promising location for the potential development of a Green Hydrogen hub.

If you live in Munglinup, Jerdacuttup or surrounds, we welcome you to join us on **Thursday 18 August, from 4pm**, at the Munglinup Community Centre to meet the team, find out more about the potential project and engage in this community-based conversation. We are keen to listen to your thoughts, questions, concerns and hopes for renewable energy generation in the region.

Please join us after the session for refreshments.

**RSVP for catering purposes to Rachel Gibson,
0428 751 062 or gavgib@bigpond.com**

Can't attend? Get in contact with our team at ffiesperance@fmgl.com.au to find out more.
